### THE BOOK

19 pictures of an ordinary american middle class day, bought in a flea market, they are a kind of archeological evidence of the arcaic and victorian WASP.

Pictures demonstrate that the middle class supplied a conception of itself very close and similar to the advertisement photographs of the 80's which in some way shaped the middle class identity and the white economy image.

### THE AUTHOR

NASTYNASTY© are Biondelli Emiliano and Valentina Venturi.

Active since 2008, their work always includes photography and its grammar.

In an attempt to represent the world around them inevitably they find themselves in the middle of unfulfilled symbolic trips where the environment and the characters portrayed are surreal and in some way psychedelic. Self published books, photography, videography, video, are the project areas where NASTYNASTY© moves and experiments.

NASTYNASTY© took part in many group shows (2010, Satus, Milan C/o SpazioMorris ; 2011 Equazione Impossibile, Ravenna various locations; 2011 Sweet Sheets, Palermo Zelle Arte Contemporanea; 2012 Fahrenheit, Ravenna Galleria Ninapi ; 2012, THE END, Miami Beach c/o Miami Beach Regional Library), International festival (2011, Fotografia Europea 011, Reggio Emilia; 2012 Berwick Film Festival 2012, Berwick),
